## THE LIBRARY

---

At the time of its organization the University Club secured by the generosity of its charter members a small library of standard books of a general nature. To this has been added a number of works of reference, and a collection of books pertaining especially to college and university affairs. In some cases complete sets of catalogues have been secured. There are also fraternity catalogues, college and university song books, annuals published by the students, historical and biographical books upon colleges and universities and their presidents, faculties and graduates, fiction of a distinctly college sort, memorials, reminiscences, Phi Beta Kappa addresses and complete catalogues such as the Alumni Record of Syracuse University published in 1899.

While it is not thought advisable to attempt any large increase in the number of books of a general nature, the development of the part of the library above mentioned has been adopted as the fixed policy of the Library Committee.
